Checklogs: LA0CX, UA1AUW, UR7MZ

Hinweis:

- Danke für die Nutzung des neuen Online Systems mit den nötigen Logs im Cabrillo Format. Dies erleichtert die Auswertung enorm. Und die Endresultate sind schneller verfügbar.
- In der gesamten Logdatenbank wurden alle „unique“ Rufzeichen UND ohne Logeinsendung nicht mit Punkten berücksichtigt. Man sollte immer sicherstellen, dass die Gegenstation auch im gleichen Contest mitwirkt! Dafür immer klar und deutlich für den HSC Contest rufen, z.B. CQ HSC HSC test...oder sorgfältig auf den Ruf einer anderen Station achten bevor man diese anruft.
- **NEU:** individuelle Teilnehmerurkunden können mittels Contest Evaluator via <https://sites.google.com/view/hsc-contest/home> heruntergeladen werden. Derzeit finden noch ein paar kleine Änderungen (Tuning der Urkunde) statt.
- Detailliert ausgewertete Logs (nach cross-check) stehen ebenfalls über diesen Link und unter Verwendung des früher zugewiesenen Passworts zur Verfügung.

Remark:

- Thanks for using the new online system with the necessary log files in Cabrillo format. This facilitates the evaluation enormously. And the final results are available much faster.
- In the whole database all „unique“ calls AND with no log submission have not been considered with points. It should be ensured that the other station is working in the same contest too! As such specifically call for the HSC contest, e.g. CQ HSC HSC test...or listen carefully to a call of another station before responding.
- **NEW:** individual Certificates can be downloaded from the Contest Evaluator via <https://sites.google.com/view/hsc-contest/home> At the moment still a bit of certificate tuning is ongoing.
- Detailed evaluated logs (after cross-check) are also available via this link. The earlier assigned password is required.
